## — ABOUT THIS PROGRAMME

# Begin offering IUI with confidence

Two intensive days that give you the core competence to run IUI and ovulation-induction cycles in your own practice — counselling, protocols, ultrasound-timed triggers, semen prep and the insemination itself.

## — WHY TRAIN AT INDIA IVF

-  **Hands-on, not just watching**  
You perform and assist under senior supervision, as the course allows.
-  **High-volume exposure**  
Rotate across a busy, accredited network to build real clinical judgement.
-  **Protocol-driven practice**  
Standardised protocols aligned to ICMR / ART guidelines you can replicate.
-  **Small batches**  
Limited seats mean direct faculty attention and real microscope time.

## — CURRICULUM

# What you will learn

- ✓ Counselling the infertile couple
- ✓ Ovulation induction protocols
- ✓ Antagonists & insulin sensitizers
- ✓ Role of ultrasound in IUI
- ✓ Ultrasound for trigger timing
- ✓ Medical management of male infertility
- ✓ Semen preparation techniques
- ✓ Basic evaluation of the couple
- ✓ Oral ovulogens, gonadotrophins & agonists
- ✓ Aromatase inhibitors
- ✓ USG-based stimulation decisions
- ✓ Optimizing IUI outcomes
- ✓ Setting up an IUI lab
- ✓ Live demonstration & hands-on IUI

## BY THE END, YOU WILL BE ABLE TO

- ✓ Counsel & evaluate an infertile couple
- ✓ Use USG for stimulation & trigger
- ✓ Plan ovulation-induction protocols
- ✓ Prepare semen & perform IUI
