— ABOUT THIS PROGRAMME

The flagship one-year fellowship

A full-time year spanning reproductive physiology, endocrinology and genetics alongside the medical, surgical and assisted-reproduction management of infertility. You finish trained in OPU and embryo transfer, with an original research study to your name.

— WHY TRAIN AT INDIA IVF

-  **Hands-on, not just watching**
You perform and assist under senior supervision, as the course allows.
-  **Protocol-driven practice**
Standardised protocols aligned to ICMR / ART guidelines you can replicate.
-  **High-volume exposure**
Rotate across a busy, accredited network to build real clinical judgement.
-  **Small batches**
Limited seats mean direct faculty attention and real microscope time.

— CURRICULUM

What you will learn

BY THE END, YOU WILL BE ABLE TO
